

Freehand DEX Brace

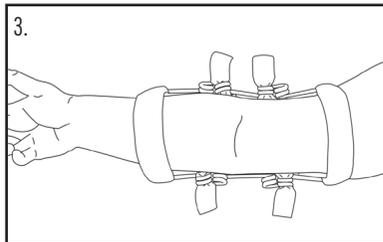

469

Warnings and Instructions: Review carefully, proper application is required

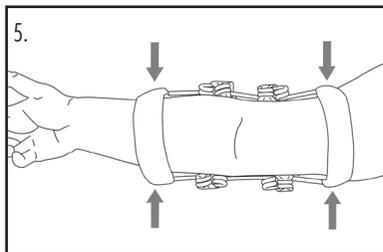

⚠ Warning: This device will not prevent or eliminate risk of injury. Do Not Overtighten. If swelling, pain, skin irritation, or an unusual reaction occurs, discontinue use immediately and consult your medical professional.
Care: Hand wash using mild soap. Rinse thoroughly. Air dry only. Do not tumble dry.

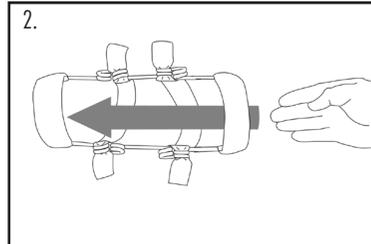

1. Pull ends of straps through the outermost spring coils for the side of the brace that will be adjacent the trunk, and through the innermost spring coils on the side of the brace that will be away from the trunk.

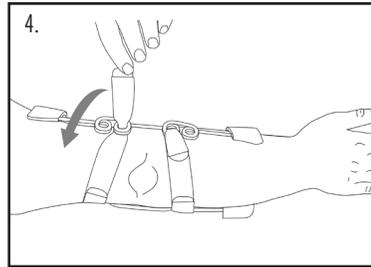

3. Position the brace with the tip of the elbow centered between the straps posteriorly and the cuffs resting on the mid portions of the anterior forearm and upper arm.

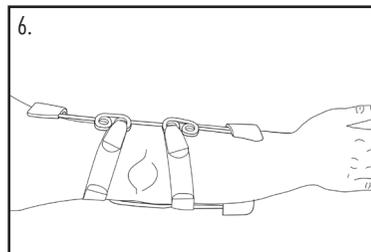

5. Bend the upper and lower cuffs to fit snugly on the limb.

2. Slide brace on arm so that the fabric covered metallic cuffs contact the biceps and the anterior forearm.

4. Adjust straps.

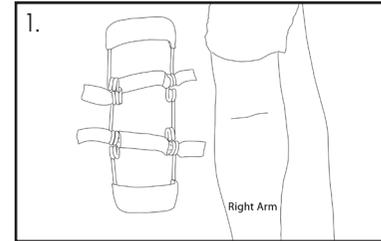

6. Finished application.
